The Sheboygan County (WI) Chamber of Commerce Ozone Nonattainment Task Force submitted a comment to [the docket](#) this week (see attached). Major features include:

- The Task Force believes that Sheboygan County is being penalized for exceedances at a monitor (Kohler Andrae) dominated by transported ozone from urban areas across Lake Michigan. They cite modeling that shows the entire state of Wisconsin contributes less than 10 percent to the ozone monitored at Kohler Andrae.
- The Task Force prefers Option 1 for revoking the 2008 NAAQS.
